

# Module 10 — Using AI to Compare Census Years

AI tools can help:

- Extract household data
  - Compare age discrepancies
  - Identify migration trends
  - Build structured tables
- 

## Tools

### ChatGPT

<https://chat.openai.com/>

### Claude

<https://claude.ai/>

### Gemini

<https://gemini.google.com/>

---

## Responsible Use

AI assists. AI does not replace source verification.

Always cite original census image.

---

## Worksheet Included

- AI Census Comparison Template
- Data Extraction Table
- Correlation Summary Builder
